Training Regulations (Exerpt from the AGB*)

Edition 1/08 chm

General

1. The trainee pilot is obligated to follow the rules of the flying school for the entire duration of the training. Failure of the trainee to accept the school conventions can result in expulsion by the flying instructor from the practice area, whereupon all claims by the person concerned are invalidated.
2. Flying outside the school without a licence is against the law and is strictly forbidden! Whoever undertakes the sport of flying without a license or outside a flying school (also on the practice hill) will be classified as a bootleg pilot by the police and may be charged. Additionally, in the case of any property damage, the insurance cover may be substantially reduced.
3. Paragliding is not a high-risk sport and is covered by normal accident insurance. In the case of accidents the flying school and the instructors accept no liability. In signing this document the trainee accepts this exclusion of liability and takes note that this also applies for continuation courses and changes in the course.
4. Damages to our training and test equipment, which are caused by the trainee, will be charged in full to the user.
5. The trainee pilot is responsible for good shoes and appropriate clothing. The flying instructor may refuse trainees with inappropriate shoes.
6. The election and payment of the chosen training option „modular"/„package" and „fast"/„medium"/„slow" must be made before the beginning of the course. Subsequent changes of course are not possible. EC-/Postcard, cash or payments in advance (Post account 46-8559-7) are the only acceptable methods of payment.
7. The basic course includes the basic training on the practice hill and 10 „high" flights (including the rental of the material, but without cable-car and transport costs). The duration of the course depends on the weather conditions but is limited to 6 months.
8. The duration of the chosen course option is limited to 6 or 12 months, or in the case of the complete package, to 6, 12 or 18 months. By timely notice before the end of the course a prolongation may be granted in the case of unavoidable interferences such as illness, accident or extended trips abroad that make regular attendance impossible. Following payment of an additional fee, the course can also be extended after the expiration date.
9. At the end of the course period or termination of the training all claims on fees paid are voided.
10. All further expenses such as exam fees, cable car and transport costs, and equipment rental are payable separately by the course participant.
11. For participation in the training on the practice hill an advance booking (telephone or E-Mail) is always necessary. High flights are to be booked on the automatic recording service (after the beep) before 8 pm the evening before. Training flights only take place if sufficient bookings have been received.
12. The trainee pilot is obligated to read the document „Information and Rules for Trainee Pilots" and to behave accordingly.
13. Otherwise the General Business Rules (AGB) apply. They can be found on the school internet site.

The undersigned trainee pilot confirms that he has read the contents of these regulations and accepts them. A copy will be supplied if requested.

Course chosen: *[ ] Modular (Basic course)* *[ ] Package*
